UNION TERRITORY OF
PONDICHERRY

ABSTRACT OF STATISTICS
1961-62

Issued by
BUREAU OF STATISTICS
GOVERNMENT OF PONDICHERRY

INTRODUCTION

The Abstract of Statistics 1961-62 is the fifth issue in the series and, as in previous years, it presents important statistical data relating to various facets of economic and social structure of the State. The same pattern is followed in presenting the tables as in the previous issues. The final figures of the 1961 population Census have been incorporated in this issue replacing the provisional figures published in the previous issue. In addition, tables on scheduled caste population, institutional and houseless population, and distribution of population by workers into 9 industrial categories and non-workers according to the 1961 Population Census have been included.

2. The reference period of the data appearing in this issue varies with the nature of the subject. Generally, the data have been presented for the financial year 1961-6 or calendar year 1961. Statistics relating to agriculture and co-operation are given for the year July to June.

3. The figures including the totals have been rounded off neglecting less than half and taking half and more than half as one. Wherever a total differs from the sum of individual figures, the difference except where otherwise stated, may be taken to be due to such rounding.

4. The valuable co-operation of the Departmental officials, the Mayors of the Communes and members of the public, for assisting in the collection of the data that are appearing in this issue, is gratefully acknowledged.

5. Although this publication is brought out by an office of the Government of Pondicherry, the Government is in no way responsible for the views expressed therein.

6. Suggestions for the improvement of the publication, if any, will be gratefully accepted.

PONDICHERRY-1.
15th November, 1963.

S. MUTHUBASAVAN,
Statistical Officer.

CONTENTS

1. GENERAL	PAGES
1·1 Figures at a Glance	1
2. CLIMATE	
2·1 Annual and Normal Rainfall	6
2·2 Seasonwise Rainfall in Pondicherry	7
2·3 Seasonwise Rainfall in Karaikal	8
2·4 Seasonwise Rainfall in Mahe	9

2. CLIMATE

Statistics relating to rainfall, temperature and relative humidity are presented in this section.

Tables 2.1 to 2.5 : These tables show the annual and seasonwise rainfall in Pondicherry, Karaikal, Mahe and Yanam for the years 1950-51 to 1961-62 (June to May). The data have been compiled from the monthly returns received from the Public Works Department, Pondicherry. For seasonwise rainfall, the year has been divided into 4 periods; South West Monsoon (June to September); North East Monsoon (October to December); Winter (January to February) and Hot weather (March to May). Normal rainfall is the simple arithmetic average of data for 30 years 1930-60 (June-May). Figures have been given in millimetres and inches.

Table 2.6 : This table gives the maximum, minimum and mean temperature at Pondicherry for the years 1954 to 1961. Figures are given in degrees Fahrenheit and Centigrade. Data regarding relative humidity have also been included in the table. Monthly figures have been given for the year 1961.

3. AREA AND POPULATION

This section deals with the area and population of Pondicherry State. Tables presented in this section are based upon the final results of the 1961 Population Census published in a brochure by the State Superintendent of Census Operations, Pondicherry.

Table 3.1 : This table presents total population of Pondicherry State from 1901 to 1961 and the variations during the inter census period.

Table 3.2 : Gives the area and density of population by settlements. Figures of area are according to the Survey of India Records and population is according to the 1961 Population Census.

Table 3.3 : Sex-wise break-up of population in rural and urban areas by settlements according to 1961 Census is given in this table. The following places have been treated as urban : (a) Pondicherry and Muthialpet Towns in Pondicherry Settlement, (b) Karaikal Town in Karaikal Settlement, (c) Mahe Town in Mahe Settlement and (d) the entire Yanam Settlement.

Table 3.4 : Commune-wise data regarding the number of census houses and census households, the number of inhabited villages and towns, rural and urban population and the percentage of urban population to total population according to 1961 Census are included in this table. A census house has been defined as a structure or part of a structure, inhabited or vacant, or a dwelling, a shop-cum-dwelling or a place of business, workshop, school, etc., with a separate entrance. A household is a group of persons who commonly live together and would take their meals from a common kitchen unless the exigencies of work prevented them from doing so.

Table 3.5 : This table contains data regarding area according to village papers, population by sex, sex ratio and density of population according to 1961 Census for each commune.

Table 3.6 : The number of literates and educated persons classified by sex and literacy rates for each commune have been given in this table. Literate is a person who can both read and write any language. Educated persons are those who have attended an educational institution and passed examinations.

Table 3.7 : This table presents commune-wise scheduled caste population by sex and percentage of scheduled caste population to total population.

Table 3.8 : Information about institutional and houseless population by communes and by sex is included in this table.

Table 3.9 : This table is devoted to settlement-wise and sex-wise distribution of population by workers into 9 industrial categories and non-workers.

Table 3.10 : This table gives information regarding commune-wise distribution of population by workers into 9 industrial categories and by non-workers.

4. AGRICULTURE AND ANIMAL HUSBANDRY

In most of the states, the monthly cultivation accounts maintained by the Karnams (Revenue Department) form the basis of agricultural statistics. Such accounts are not now maintained in this State. However, at the instance of the Bureau of Statistics, the Revenue Department asked the Karnams to furnish data in the forms prescribed by the Ministry of Food and Agriculture, Directorate of Economics and Statistics. The entire State has been surveyed. The extent of wet land, dry land and poramboke are available. There are 30 Karnams in the Revenue Department. The jurisdiction of each Karnam is about 6 square miles. Since monthly cultivation accounts are not maintained, each Karnam supplied some rough estimates for his circle. Based on these returns, the data have been compiled by the Bureau of Statistics. Obviously, therefore, collection of agricultural statistics in this State is not satisfactory.

Figures given in this section relate to land utilisation, area irrigated by different sources, crop acreage and agricultural production for the years 1956-57, 1957-58, 1958-59, 1959-60 and 1960-61 (July to June). For the year 1960-61 figures for each settlement have been given. Crop calendar giving sowing, harvesting and peak-marketing period for principal crops, size of land holdings by ownership, information regarding number of livestock and agricultural machinery according to livestock census, 1961 and veterinary aid statistics are also included.

Table 4.1 : This table is devoted to land utilisation statistics. Generally, the standard definitions of the categories of land adopted in this table are those recommended by the Ministry of Food and Agriculture, Directorate of Economics and Statistics.

Table 4.2 : Shows data relating to net area under irrigation according to modes of irrigation, area irrigated with crops more than once during the year being counted once only. Area irrigated by spring-channels, ponds etc., are included in 'other sources'.

Table 4.3 : This table gives data regarding area under irrigation according to cropwise distribution. Irrigated area sown with crops more than once during the year is counted as separate area for each crop.

Table 4.4 : This table furnishes information regarding area under all crops. Total area under crops irrigated and unirrigated is included in this table.

Table 4.5 : Gives data relating to the production of principal crops in this State. Production of each crop has been worked out separately for each settlement on the basis of the estimates of yield per hectare furnished by the Karnams.

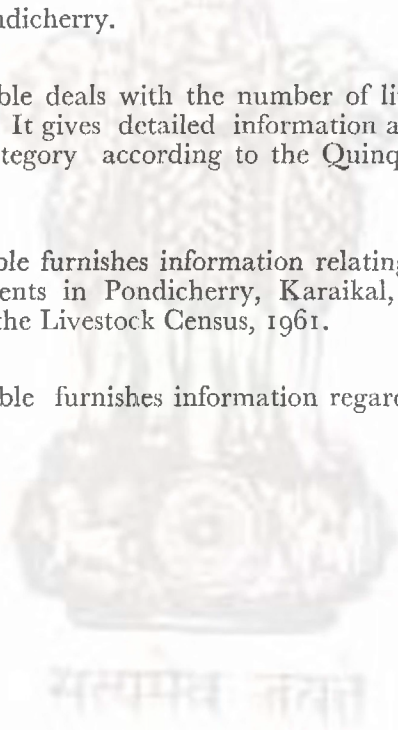

Table 4.6 : Information regarding the distribution of land-owners according to size of holdings during 1956-57 is presented in this table, which has been furnished by the Revenue Department.

Table 4.7 : This table gives general information about sowing, harvesting and peak-marketing seasons of principal crops in each settlement. The information has been compiled by this bureau in consultation with the Season and Crop Report of Madras State, the Statistical Abstract of Andhra Pradesh, 1957 and the Department of Agriculture, Pondicherry.

Table 4.8 : This table deals with the number of livestock and poultry in each settlement of this State. It gives detailed information about the number of livestock and poultry in each category according to the Quinquennial Livestock Census, 1961.

Table 4.9 : This table furnishes information relating to number of agricultural machinery and implements in Pondicherry, Karaikal, Mahe and Yanam. The figures are according to the Livestock Census, 1961.

Table 4.10 : This table furnishes information regarding veterinary aid available in this State.

4. AGRICULTURE AND ANIMAL HUSBANDRY

4.1 Classification of Area

(In hectares)

S. No.	Description	1956-57	1957-58	1958-59	1959-60	1960-61	1960-61			
							Pondicherry	Karai-kal	Mahe	Yanam

5. Public Health and Vital Statistics

This section is devoted to medical and vital statistics. Information about the number of hospitals, dispensaries, beds and medical personnel have been furnished by the Director of Medical Services. The number of births, deaths by causes and age groups have been compiled from the monthly returns sent by the Mayors through the Chief of the Bureau of Political Affairs.

Number of hospitals, dispensaries and beds is given in Table 5.1. Table 5.2 gives the number of medical personnel.

Table 5.3 presents live-birth rate and death rate per thousand population and still-birth rate per thousand live and still-births. The formulae used are as follows :

$$\begin{array}{l} \text{Live-birth rate/Death rate per } 1000' \text{ population.} \\ \text{Still-birth rate per } 1000' \text{ live and still-births.} \end{array} \left. \vphantom{\begin{array}{l} \text{Live-birth rate/Death rate per } 1000' \text{ population.} \\ \text{Still-birth rate per } 1000' \text{ live and still-births.} \end{array}} \right\} \begin{array}{l} \text{Total live-births/deaths} \times 1000 \\ \hline \text{Estimated mid-year population.} \\ \text{Total still-births} \times 1000 \\ \hline \text{Total live-births} + \text{Total still-births.} \end{array}$$

Straight lines have been fitted up with 1956 as origin.

Table 5.4 gives number of deaths due to various causes. The number of deaths by different age groups are given in Table 5.5.

Table 5.6 gives information regarding progress of B.C.G. vaccination in each settlement.

Table 5.7 shows the estimated number of leprosy cases in this state by communes. Figures have been extracted from the Report on Leprosy and its Control work by Dr. K. R. Chatterjee.

6. Education

This section deals with education statistics. The data relate to all the educational institutions functioning in the state irrespective of the source of expenditure. Figures are generally presented for six years 1956-57 to 1961-62. The system of education in this state is given in the following table.

Medium of instruction/Stage	Name of classes	Duration
1	2	3
<i>I French—</i>		
Primary	11 ^{ème} , 10 ^{ème} , 9 ^{ème} , 8 ^{ème} , 7 ^{ème}	Five years.
High	6 ^{ème} , 5 ^{ème} , 4 ^{ème} , 3 ^{ème} , . . .	Four years.
College	Seconde, Première, Philosophie or Mathématiques.	Three years.
<i>II English—</i>		
Primary	Standards I to IV	Four years.
Middle	Forms I to III	Three years.
High	Forms IV to VI	Three years.
<i>III Tamil—</i>		
Primary :		
Pondicherry type	1 ^{ère} année upto 7 ^{ème} année.	Seven years.
Madras type	Standards I to VII	Seven years.
Secondary :		
Pondicherry type	Année préparatoire, cours complémentaire 1 ^{ère} année, C. C. 2 ^{ème} année, C. C. 3 ^{ème} année.	Four years.
Madras type	Standards VIII to X	Three years.

Table 6.1 gives the number of institutions by type. Figures for government and private institutions have been given separately for 1961-62 only.

6. EDUCATION

Table 6.2 deals with the number of pupils on rolls by sex and type of institutions. The number of boys given against each type of institution represents the total number of boys studying in both boys' and girls' institutions of that type. Similarly, the number of girls against each type of institution represents the number of girls studying in the institutions of that type for boys and girls put together. Figures for government and private institutions have been given separately for 1961-62 only.

Table 6.3 shows the number of teachers by sex and type of institutions. Figures for government and private institutions have been given separately for 1961-62.

Table 6.4 shows the strength of the Directorate of Public Instruction.

Tables 6.5 and 6.6 deal with distribution of students by age groups in institutions for general education and for professional, technical and special education.

Table 6.7 gives the distribution of scholars by classes in institutions for general education.

Table 6.8 gives the number of students who appeared and passed in various examinations.

Tables 6.9 and 6.10 deal with expenditure on education by sources and type of institutions.

Table 6.11 gives information regarding adult education, namely, the number of literacy centres, number of scholars on rolls, adults made literate, teachers and expenditure.

7. STATE FINANCE AND BANKING

This section is devoted to state budget, statistics relating to small savings, life insurance and banking.

Table 7.1 gives summary of revenue receipts and expenditure.

Table 7.2 and 7.3 show the departmental receipts and gross expenditure by different heads. In table 7.3 "Miscellaneous Departments" (Head of account 'O') include Office of the Controller of Imports and Exports, Inspectorate of Labour and Social Legislation, Labour Tribunal, Veterinary, Library, Employment Exchange and Company Law Registry, and "Miscellaneous" (Head of account 'T') represent donations and contributions to charitable, cultural and religious institutions, expenditure on welfare of backward classes, grants to Municipalities etc.

Table 7.4 deals distribution of expenditure by development and non-development services.

Tables 7.5 to 7.7 give the expenditure on security services, social services and economic development services, respectively.

The figures relating to expenditure in all the above tables are exclusive of loans.

Table 7.8 provides information about loans and advances issued by the state government.

Table 7.9 gives revenue from state excise by commodities.

Table 7.10 and 7.11 furnish information regarding the number of assesseees and amount of income tax collected.

Table 7.12 collections under small savings are given in this table.

Table 7.13 gives statistics relating to life insurance.

Table 7.14 shows the operation of scheduled banks.

Tables 7.15 and 7.16 Balance sheet of state co-operative bank and co-operative urban banks are presented in these tables.

8. LOCAL BODIES

Pondicherry State comprises of four settlements namely Pondicherry, Karaikal, Mahe and Yanam. Each settlement is divided into communes; 8 in Pondicherry, 6 in Karaikal and one each in Mahe and Yanam. Each commune comprising of a group of villages, is being administered by a municipal council under the leadership of a Mayor. The municipalities (Mairics) in this State are neither municipal councils nor major panchayats as under-stood in the rest of India.

Table 8.1 : This table presents the summary of the budget of all the municipalities for the calendar years 1955, 1956, 1957, 1958, 1959, 1960 and 1961. Total receipts are classified into ordinary and extraordinary and total expenditure into compulsory, facultative, supplementary and extraordinary.

Table 8.2 : This table gives total receipts and expenditure of each municipality by communes for the calendar years 1955, 1956, 1957, 1958, 1959, 1960 and 1961.

Ordinary receipts : Revenue from the municipal properties, concessions granted by the State Government on certain taxes, stall rents collected in the markets, slaughter houses, etc., parking duties in public squares and roads, toll fees, fees charged for the issue of births, deaths and marriage certificates etc., constitute ordinary receipts.

Extraordinary receipts : Grants, subsidies and loans from the government are included in this category.

Compulsory expenditure : Expenses on general administration, tax collection, health, census and graveyards come under this category.

Facultative expenditure : Expenses on public works, police, pond, supervision of markets, etc., constitute facultative expenditure.

Extraordinary expenditure : Expenses met out of grants and subsidies from the State Government for under-taking certain works are included in this category.

Supplementary expenditure : Expenses met from the supplementary budget of the municipalities come under this category.

10. PRICES

Wholesale and retail prices are collected every Friday from Pondicherry market. In the case of wholesale prices, 78 quotations are collected for 42 commodities and in the case of retail prices, 74 quotations for 50 commodities. The wholesale prices are secondary prices and the quotations relate to the modal price *i. e.*, the price at which most of the transactions take place. They relate to the actual transactions, nominal quotations are being avoided. There is no salestax in this State.

Table 10.1 gives wholesale prices (averages of weekly quotations) in Pondicherry for the years 1958-59 to 1961-62 and monthly figures from April 1961 to March 1962. Wholesale prices are in rupees per quintal (or 100 kg. or 2.67923 standard maund of 82 $\frac{3}{7}$ lbs.) except where otherwise stated.

Table 10.2 gives retail prices (averages of weekly quotations) in Pondicherry for the years 1958-59 to 1961-62 and monthly figures from April 1961 to March 1962.

11. CO-OPERATION

The Madras Co-operative Societies Act, 1932 (VI of 1932) was extended to Pondicherry State in 1955. The data presented in this section give an idea of progress achieved under co-operation. The data are given for seven years from 1956 to 1962 and give position as on 30th June of each year. Societies are classified into 2 main categories : Credit and non-credit societies. Figures for the year ending 30th June 1962 are provisional.

Table 11.1 gives information regarding progress in co-operation in general namely the total number of societies, members, working capital, etc. Working capital is the sum of share capital paid up, deposits, loans, reserve and other funds. It also gives the average working capital per head of population.

Table 11.2 gives the progress achieved in the field of co-operation according to type of societies.

12. LABOUR AND EMPLOYMENT

This section presents data relating to employment in public and private sectors, data relating to employment exchange, and wages paid to agricultural and skilled labourers.

Tables 12.1 to 12.3 present results of the census of government employees. All the employees working in the offices of the Pondicherry State Government and its industrial and commercial undertakings have been included. For this census, those who are on the pay rolls of the establishment have been taken as regular staff. The staff paid from contingencies, workcharged personnel, and those employed on daily wages have been classified as non-regular staff. Casual daily rated labour employed for less than a month and contractors' labour have not been included. The ex-French employees whose pay scales start with a minimum of Rs. 300 or more have been taken as gazetted officers. Those who have been confirmed and hold substantively the post against which they are shown, on the date of census, have been taken as permanent. Permanent employees though working temporarily or officiating in any temporary post on the date of census, have also been taken as permanent. All those who are not confirmed and do not hold substantively any post on the date of census have been taken as temporary. Persons appointed in leave arrangements and temporary employees officiating in permanent posts have been shown as temporary. Basic pay includes personal or special pay, if any, but excludes dearness and other allowances.

Table 12.4 gives the number of labourers employed in the textile industry by age group and sex. Table 12.5 furnishes information relating to labour employed in various shifts and departments in respect of textile industry. Average number of working days, spindles run in per shift and looms worked per shift are also included. Figures have been extracted from the "Indian Textile Industry Statistical Bulletin", issued by office of the Textile Commissioner, Bombay.

Tables 12.6 to 12.9 give the number of trade unions and their membership, the number of industrial disputes, industrial accidents and the compensation paid for industrial accidents. The figures presented in these tables are tentative.

Tables 12.10 and 12.11 relate to the number of employees in co-operative societies and the wages and salaries paid to them respectively.

Table 12.12 : This table gives daily average wages paid to each category of agricultural and skilled workers. Cash equivalent of wages given in kind has been taken into account in working out the daily wages paid. Data have been furnished by the Project Executive Officer, Villianur, the primary reporting agency being the village level worker.

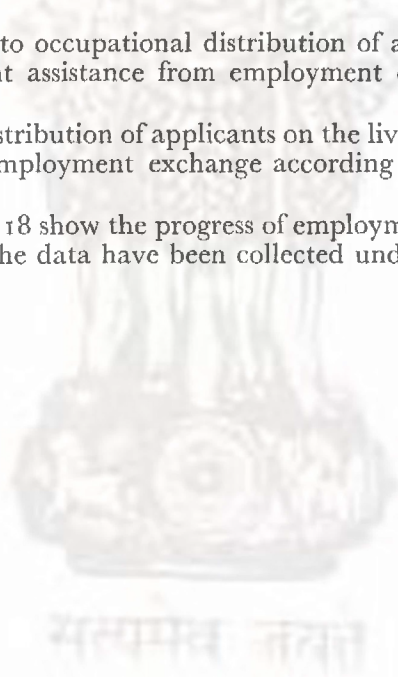

There is only one employment exchange in this state located in Pondicherry town. Table 12.13 shows the number of registrations and placements effected by the Pondicherry employment exchange.

Table 12.14 relates to the progress of live register of the employment exchange and output of educational institutions.

Table 12.15 relates to occupational distribution of applicants on the live register still seeking employment assistance from employment exchange.

Table 12.16 gives distribution of applicants on the live register still seeking employment assistance from employment exchange according to educational qualifications.

Table 12.17 and 12.18 show the progress of employment in the Public and Private Sectors respectively. The data have been collected under the Employment Market Intelligence Scheme.

13. *Industry*

This section deals with industrial production of some of the important industries of this state, namely, cotton textiles, sugar, vegetable oils, oil-cakes, matches and country spirits.

Tables 13.1 to 13.3 give statistical data relating to cotton textiles which have been taken from the Indian Textile Industry—Statistical Bulletin issued by the Textile Commissioner, Ministry of Commerce and Industry. Table 13.1 gives the number of spindles and looms installed. Tables 13.2 and 13.3 include data relating to production of cotton yarn and cloth respectively, based on monthly average. Tables 13.4 and 13.5 provide data on cotton yarn delivered for civil consumption and cloth delivered for civil consumption respectively.

The new Horizon Sugar Mill, Ariyur, went into production during September 1960. Table 13.6 gives the monthly production of sugar.

The data relating to production of vegetable oils and oil-cakes are being collected only from the mills which are power driven situated in Pondicherry settlement. The data have been compiled from the monthly returns received from these mills and are presented in table 13.7.

Production, sale and stock position in respect of handloom industry under co-operative fold have been given in tables 13.8 and 13.9. The number of societies, their membership and other information in respect of weavers co-operative societies have been given in section II.

Production of matches is being compiled from the monthly returns received from the manufacturers and is set out in table 13.10.

Table 13.11 furnishes data relating to production of country spirits by the Government distillery, Pondicherry.

15. TRADE

Tables relating to inland trade, foreign trade of merchandise by sea and value of import and export licences issued to merchants in Pondicherry State are presented in this Section.

Tables 15.1.A and 15.1.B: These tables give data regarding imports into and exports from Pondicherry-Karaikal trade block of 64 commodities by rail and river during the financial years 1955-56 to 1961-62 respectively. These tables are based upon the annual statements received from the Director General of Commercial Intelligence and Statistics, Calcutta.

Table 15.2: This table furnishes annual data regarding value of imports into and exports from Pondicherry and Karaikal ports for the years 1940-41 to 1948-49 and from 1955-56 to 1961-62. Figures for the years 1949-50 to 1954-55 are not available. Data from 1940-41 to 1948-49 have been extracted from the Annual Statements of the Foreign Sea and Air-borne Trade of India issued by the Director General of Commercial Intelligence and Statistics, Calcutta. Data for the subsequent period have been compiled from the monthly statements received from the Collector of Customs, Madras and the port commodity tabulations issued by the Director General of Commercial Intelligence and Statistics, Calcutta.

Tables 15.3 and 15.4: Data regarding the value of sea-borne foreign trade by sections and divisions for the calendar years 1957 to 1961 according to the revised trade classification adopted from 1st January, 1957 are furnished in these tables. These figures have been compiled from the numeric port commodity tabulations issued by the Director General of Commercial Intelligence and Statistics, Calcutta.

Tables 15.5 and 15.6: Information about the value of import and export licences issued to merchants in this State for each licensing period have been included in these tables. These tables were compiled from the monthly statements furnished by the Controller of Imports and Exports, Pondicherry and give position as on 31st March, 1962.

16. FUEL AND POWER

This section presents statistics relating to fuel and power.

Progress in the field of electrification and production and consumption of power in respect of Pondicherry Settlement for the years 1954-55 to 1961-62 have been presented in Tables 16.1 and 16.2. Tables 16.3 and 16.4 give similar information for the state as a whole (settlement wise) for the years 1960-61 and 1961-62. Particulars in respect of Yanam Settlement for the year 1961-62 are not available.

Table 16.5 provides information on consumption of petroleum products during the years 1954 to 1961. Table 16.6 gives data on consumption of coal for industrial purposes during the years 1954-55 to 1961-62. These statements relate to Pondicherry settlement only.

17. JUDICIAL AND ADMINISTRATIVE STATISTICS

This section presents statistics relating to cases decided in courts, cognisable crime, property stolen, strength and cost of civil police, jails and fire accidents.

Table 17.1 contains information about the number of cases decided in different courts namely, Court of Appeal, Court of First Instance and Justice of Peace during the years 1954 to 1961.

Table 17.2, gives figures relating to cognisable crime reported by type of offence for the years 1955 to 1961.

Table 17.3 : This table presents data regarding the number of police stations and outposts, strength of police force by designation and total expenditure on police during the financial years from 1955-56 to 1961-62.

Table 17.4 gives number and distribution of prisoners, daily average of prisoners, place of confinement, number of prisoners received and discharged for the years 1957 to 1961.

Table 17.5 contains information about the distribution of convicts by age groups and by sex for five years, 1957 to 1961.

Table 17.6 gives the data relating to the nature and length of sentences of convicts admitted into jails by sex for the years 1957 to 1961.

Table 17.7 furnishes information regarding sickness and mortality among prisoners during the years 1957 to 1961.

Table 17.8 gives expenditure incurred in guarding and maintaining prisoners for the years 1957 to 1961.

Table 17.9 : This table presents data regarding the property stolen and recovered for five years from 1957 to 1961.

Table 17.10 gives figures relating to number of fire stations, number of calls attended and estimated value of property lost.

19. COMMUNITY DEVELOPMENT

This section gives achievements under the Community Development Programme in respect of each block. On 31st March 1962, there were 3½ blocks in the State, Pondicherry—a double block, Karaikal block and Mahe—half-a-block.—These blocks cover 95% of the total area of the State, 100% of villages and 87% of population.

Pondicherry Block :—The National Extension Service block was inaugurated in Pondicherry settlement in May 1955 with its headquarter at Villianur. It is a double block with one administrative unit, covering an area of 287.5 Sq. Km. (111 Sq. miles) with a population of 2,18,140. It consists of the entire Pondicherry settlement excluding Pondicherry town. This block was converted into a Community Development block from October 1957, six months ahead of the usual tenure of three years, because of its good progress. Since 2nd October, 1960 it is a Stage II block.

Karaikal Block :—The N. E. S. block in Karaikal was inaugurated in October 1956 with its headquarter at Thirunallar. At present its headquarter is at Thalatheru. This block constitute the entire Karaikal settlement including Karaikal town, covering an area of 158.0 Sq. Km. (61 Sq. miles) with a total population of 84,001. With effect from April 1958 due to revision in the Community Development Programme, it is treated as Stage I block. This block will enter Stage II on 1st April 1962.

Mahe Block :—The pre-extension block at Mahe was inaugurated on 1st April 1959. It is only half-a-block with its headquarter at Pallur. This block covers the entire Mahe settlement with an area and population of 10.4 sq. Km. (4 Sq. miles) and 19,485 respectively. This block entered Stage I on April 1960.

Table 19.1 shows the staff position as on 31st March 1962.

Table 19.2 give the number of blocks allotted, area, population and main villages covered by these development blocks.

Tables 19.3 to 19.5 give particulars on government expenditure and people's contribution by major heads upto 31st March 1962 since the inception of the programme.

Table 19.6 gives the physical achievement in block areas during the first and second plan periods.

Block-wise figures have also been incorporated in Tables 19.1 and 19.3 to 19.6.

20. FIVE YEAR PLANS

This section deals with financial aspect of the Five Year Plans—Pondicherry State. Information on the schemes to be implemented by the State Government and Central Government have been given separately in all the tables. Figures for the First Five Year Plan relate to the period 1st November, 1954 to 31st March, 1956 since planning was introduced immediately after the de-facto transfer of the administration to the Government of India.

Tables 20.1 and 20.2 give the data regarding distribution of plan outlays by sectors of economy and heads of development respectively. Figures have been incorporated for all the three plans.

Table 20.3 presents the distribution of outlay for the Third Five Year Plan by heads of development on spill over schemes, new schemes, capital expenditure and foreign exchange requirements.

Table 20.4 gives an idea of phasing of the outlay as originally proposed in respect of the Third Five Year Plan.

Table 20.5 shows the actuals for 1961-62, the budget estimates and revised estimate for 1962-63 and the budget estimates for 1963-64 for various heads of development under the Third Five Year Plan.

20. FIVE YEAR PLANS
